CONFIDENTIAL.

THROUGH THE FINANCIAL SECRETARY.

1) Submitted to the Dewan of Mysore.

2) A memorandum on the lines approved by him is put up as directed.

3) The Chief Engineer, P.W. Department, has been consulted and he is agreeable.

Secretary to Government,
Electrical Department.

Bangalore,)
24th August 1939.)

24.8.39

MEMORANDUM.

The following arrangements are ordered in connection with the future working of the Jog Falls Project:-

1. The design and execution of both Civil and Hydraulic Works of the Jog Falls Project and the Financial control of the whole project to be transferred to the P.W.Department.

2. Mr. L.A.H. Winckler, Superintending Engineer, Electrical Department, and his Jog Staff to be transferred to the P.W. Department to work under the orders of the Chief Engineer. The Superintending Engineer will cease to be connected with the Shimsha Project, which is nearly finished.

3. Orders as to the design and execution of the Electrical part of the Scheme will issue later.

4. Mr. P.V.K. Murthy, Technical Assistant to the Chief Electrical Engineer to be transferred temporarily until firther - - orders to the Electrical Secretariat as Assistant to the Secretary, Electrical Department, in connection with the Jog Falls Scheme.

5. The ~~six~~ salaries of the transferred staff for August will be disbursed by the Chief Electrical Engineer and thereafter

P.T.O.

Comptroller as in the case of the
by the ~~Chief Engineer, P.W.Department~~
P. W Staff Capital Cost of the
and debited to the Jog Scheme.

6. These orders will involve a transfer of funds from the Electrical Capital Budget to the Capital Budget of the P.W. Department. Detailed orders will issue later in consultation with the Comptroller

for Secretary to Government,
Electrical Department.

Bangalore,
24th August 1939.

4) I agree that the S.E. should be placed under the C.E. P.W.D., for the purpose of financial Sections of the Project.

5)
(2) As regards the appointment of a Technical officer as Asst Secy in the Electric Dept, I think a better arrangement would be to get the Council Dept. to advise the Govt. in connection with the Jog Scheme. She would prepare the whole project in consultation with the C.E.E. & he will look into other matters of a technical & Commercial nature & offer his suggestions. Later on
We could get him for a year in the first instance with a view thereafter to the Govt. when the Council

NOTE—Contn. Sheet

479.

Serial No.

Letter No.1A dated the 8th June 1940 from Mr.A.G.Connell states that he is reluctant to leave the Country during the present crisis, and offers his terms for employment under this Govt.

Subd. The Trade Commissioner was requested in this office letter dated 17th April to furnish further details about the qualification of Mr.Connell and he was also asked to find out if his services were still available. Mr. Connell now says that he is reluctant to leave ~~duri~~ England during the present crisis, and that however, he would consider the case if a firm offer is made on a contract of 5 years, with the possibility of an extension by another 5 years. His terms are:-

Period	Minimum 5 years.
Passage.	I class to & fro for himself and his wife.
Leave.	Usual (?) holidays every 3 years, with passage Home & back.
Salary.	£.3,000/- per annum.

He is prepared to overhaul and review the existing undertakings, and also take up 120,000 H.P. new development.

It is subd. in this connection that the services of Sir Henry Howard have been engaged by the Govt. now for advising Govt. on a general layout for the Jog Power Sation and for drawing up specifications for the several sections relating to the electrical portion of the Project.

The terms proposed by Mr Connell are far too extravagant. I think we may give up

NOTE—Contn. Sheet.

Submitted to His Highness.

These papers relate to a proposal to engage the services of Sir Henry Howard, C.I.E., Consulting Engineer to the Government of Madras, in connection with the drawing up of specifications for the Jog Falls Project.

K It was considered necessary sometime ago to appoint a separate adviser in connection with the Jog Hydro-Electric scheme to undertake the preparation of the entire project (except Civil and Hydraulic works) and also to look into other matters of a technical and commercial nature concerning the proposed as well as the existing installations.

L An enquiry was accordingly made of the Trade Commissioner for Mysore in London calling for detailed information about Mr. A.G. Connell, Hollingwood, whose application had already been forwarded by the Trade Commissioner. As there is likely to be some delay in the receipt of the Trade Commissioner's reply and as it is also doubtful if Mr. Connell would be available, in view of the war conditions in England, it has been considered necessary to select some other officer for the purpose.

M Sir Harold Colam was requested to find out if Sir Henry Howard was available. Sir Henry has since replied stating that he is agreeable to undertake the work for a remuneration of Rs. 2,400/- plus travelling allowance. He expects to undertake the work in August next and finish it in about two months' time.

The Members of Council are agreeable to this proposal and gracious sanction of His Highness is solicited to entrust the work to Sir Henry Howard.

17th April 40

Please refer to your letter No. S. dated 9th March 1939 forwarding the applications of three persons for the post of Chief Electrical Engineer in Mysore and to my reply dated 25th April 1939 stating that there was no likelihood of the post being offered to any one at that time.

Government have since considered it necessary to appoint an adviser in connection with the Jog Hydro Electric Scheme to undertake the preparation of the entire project (excepting civil and hydraulic works) in consultation with the Chief Electrical Engineer, and also to look into other matters of a technical and commercial nature in connection with the proposed as well as the existing installations. If his initial work in an advisory capacity is found satisfactory, this may lead to a more permanent engagement of his services on the retirement of the present Chief Electrical Engineer.

The application of Mr. A.G. Connell, Hollingwood, Nr. Chesterfield, was considered in this connection, but it was found that detailed information on certain important points was not available in your letter of 9th March 1939.

It is stated in the copy of the memorandum of the qualifications of Mr. Connell forwarded to you by Sir William Barton, that he is a passed student of the Institute of Civil Engineering. I am to enquire if he possesses any other academical and professional qualifications in Electrical Engineering and whether, apart from his operating experience, he has been in responsible charge of the design and execution of large electrical undertakings like the Jog project. It is essential that the person selected should be able and competent to give authoritative

authoritative advice on all technical matters relating to the project and to draw up specifications for the machinery and equipment.

I am to request you to make confidential enquiries and obtain this information for Government. Kindly find out also if Mr. Connell is still available for employment.

Rajasevasakta

T. V. A. Isvaran, Esq., B.A.,

Ootacamund.
May 12th, 1940.

My dear Colam,

Many thanks for your D.O. of May 11th.

I should be pleased and interested to assist you with the work in connection with the Jog Falls Project, and Electrical Development in general.

I interpret my terms of reference as follows:-

To decide upon a general layout for the power station, and draw up specifications for the sections of the Jog Falls Project named below:-

(a). Penstocks and Valves.
(b). Generators and Impulse Turbines.
(c). Transformers.
(d). Control Gear and Auxiliaries.

In order to carry out the above work I shall require to be furnished with ~~the~~:-

(a). A general description of the hydraulic works, including present and future regulated flow and capacity of Forebay. Accurate levels should be given at important points.

(b). An accurate profile of the Penstock Line.

(c). Details of the existing and future Transmission System.

About three days in the field may be found necessary before the specifications are submitted, in order to check up details on the ground.

At present I have other work, besides that for the Madras and Travancore Governments, and could not commence the specifications until early

in August.

My fee for the work set out in the terms of reference, would be Rs2400. plus ~~that~~ any travelling expenses which might be incurred by me. For any work not included in the terms of reference, the remuneration shall correspond to that paid me by other Governments or may be arranged by mutual agreement.

As I could not give my undivided time to the work, the preparation of the specifications might take about 2 months.

For ethical reasons, I cannot undertake the work if Mr Forbes is connected with it, unless he agrees in writing to my employment. Similarly, if it is intended to call him in to discuss the specifications when drawn up, then in my opinion, he should be consulted at this stage. I feel sure that in the circumstances, you will appreciate this procedure.

Yours sincerely,

H C Howard

Order No.

In connection with the Jog Falls Hydro-Electric Scheme, it has been considered necessary to engage the services of an expert from outside for giving advice on all technical matters as well as for drawing up the necessary specifications for machinery, etc. But owing to unsettled conditions in Europe due to War, it has not been found possible to take up the ~~entire~~ scheme in its entirety. With a view however to undertake the preparation of the project (excepting Civil and Hydraulic works), an inquiry was made of Sir Henry Howard, C.I.E., if he ~~is agreeable~~ would kindly undertake the work. He has agreed to take up the work in August 1940 and ~~finish~~ complete it in about two months.

Government are accordingly pleased to direct that the services of Sir Henry Howard be engaged for the purpose on a lump-sum remuneration of Rs.2,400/-. He will also be given travelling allowance admissible to officers of Class I, ~~viz.~~ i.e. I class railway accommodation, Daily allce. of Rs.7/8-, and road mileage of as. six per mile.

The consulting Engineer ~~is required to decide~~ will advise upon a general layout for

the Power station, and draw up specifications for the sections of the ~~Jog Falls~~ Project ~~named~~ n.l.d below:-

i. Penstocks & Valves.
ii Generators & Impulse Turbines.
iii Transformers.
iv Control Gear & auxiliaries.

For any extra work entrusted to him, the Consulting Engineer will be paid additional remuneration to be fixed by mutual agreement.

The cost involved on this account will be debited to the Jog Falls Project Estimate.

Dated, (Camp) Mysore, 12th June 1940.

In connection with the Jog Falls Hydro-Electric Scheme, it has been considered necessary to engage the services of an expert from outside for giving advice on all technical matters as well as for drawing up the necessary specifications for machinery and equipment. But owing to unsettled conditions in Europe due to war, it has not been found possible to take up the scheme in its entirety. It is however proposed to take expert advice on some matters relating to the electrical portion of the work. Government are accordingly pleased to direct that the services of Sir Henry Howard be engaged for the purpose on a lumpsum remuneration of Rs.2,400/- (Two thousand and four hundred only). He will be given travelling allowances admissible to officers of Class I, that is First class railway accommodation, daily allowance of Rs.7/8/- and road mileage of annas six per mile.

The Consulting Engineer will advise upon a general layout for the Power Station, and draw up specifications for the sections of the Project noted below:-

i. Penstocks and Valves.
ii. Generators and Impulse Turbines.
iii. Transformers.
iv. Control Gear and auxiliaries.

For any extra work entrusted to him, the Consulting Engineer will be paid additional remuneration to be fixed by mutual agreement.

The cost involved on this account will be debited to the Jog Falls Project Estimate.

BANGALORE, S. India.

Dear Mr. Isvaran,

ADVISOR AND CHIEF ELECTRICAL ENGINEER TO THE GOVERNMENT.

It was a pleasure to me to meet you again in London, and I am sorry it was such a brief meeting.

You asked me to write you a letter with regard to the above to give my views, and I would like the following points to have consideration.

Since I wrote to you on the 14th February, 1939, I have as you know taken on fresh obligations. My present appointment involves the extension of this Central Electricity Board Selected Station, the first section now in hand costing well over a quarter of a million pounds sterling. The international situation also has its influence on me, and therefore I am more reluctant to leave this country during the worst of the crisis.

However, I would in any case require a firm offer from your Government in the form of a five years Contract, with the possibility of renewal for a further 5 years with, of course, the usual holidays every three years, first class travelling expenses for these holidays, and on completion for my wife and myself.

The overhaul and review of your Electrical Undertaking both technically and commercially does appeal to me, and I would enjoy this work, also the 120,000 H.P. new development.

You will have papers from me showing that I have handled many large comprehensive schemes where I have had complete charge of the whole scheme including civil works, mechanical and electrical.

I cannot well consider a salary of less than £3,000. per annum, and it should be borne in mind that for the above advisory and development work a firm of Consulting Engineers is usually employed, which would, of course, cost your Government a much greater sum than the above.

contd.

HALIFAX CORPORATION ELECTRICITY DEPARTMENT.

Continuation No. *to* Rajasevasakta T.V.A.Isvaran, Bangalore. *Date* 8th June, 1940.

Further, in evidence of my mechanical and technical ability, I would refer you to the Chairman of the Central Electricity Board, Sir Archibald Page, and the world known firm of Consulting Engineers, Messrs. Merz 7 McLellan, for whom I worked during the development of the National Grid Scheme.

Your Government will naturally appreciate that I cannot leave my present post with its assured prospects in this country without very concrete proposals for a permenancy.

I trust that you are having a restful and safe trip to India, and that by the time you arrive the war news will be favourable.

I am sending a copy of this letter to Sir William Barton, and I hope you will approve of this as he has taken such a kindly interest throughout the long negotiations which have taken place between us.

My best wishes and kind regards,

Yours sincerely,

A.L. Mcmullen.
